Venue

Kruger National Park, Skukuza

Skukuza is the Kruger National Park's largest rest camp and administrative headquarters. It is situated on the southern banks of the Sabie River. The camp is well foliaged and there are some lofty trees along the river's edge. Activities and facilities are diverse, as are the animals and plants found both within the camp and in the surrounding areas.

WELCOME MESSAGE

The 5th International Congress on Parasites of Wildlife (ICPOW) will be held jointly with the 53rd annual congress of the Parasitological Society of Southern Africa (PARSA) in Kruger National Park during 14-18 September 2025 (<https://savetcon.co.za/2025-5th-international-congress-on-parasites-of-wildlife/>).

Session themes will include amongst others: molecular biology, taxonomy and systematics (that is based on molecular analyses), parasite-host interactions, immunology, parasite ecology, disease and transmission ecology, veterinary parasitology, parasite evolution and host-switching.

The congress has attracted 120 delegates from more than 10 different countries. The South African contingency includes established researchers and postgraduate students from various institutions such as the University of Limpopo, University of Venda, North-West University, University of the Western Cape, Pretoria University, SANBI, the ARC and Stellenbosch University.

The congress aims to facilitate the exchange of research findings and fruitful engagement between delegates. More importantly, the congress will act as platform to discuss and develop activities that will ensure capacity building in the field of parasitology in South Africa and Africa.

Association with ICPOW and PARSA, as a donor, sponsor or exhibitor is an excellent way to reach a focussed and captive audience for demonstrating your interest in parasitology.

The congress offers a variety of engagement opportunities suitable for large as well as small organisations. With this event held for the fifth time in Africa, great participation from the region is expected due to accessibility and affordability. Please use this unique opportunity to participate in this event by selecting from the options in this prospectus.

On behalf of the Organising Committee, who are devoting significant time apart from their normal daily jobs to organize ICPOW2025, we wish you a memorable congress, both scientifically and socially – and we look forward to welcoming you all to the Kruger National Park in 2025.

ICPOW2022 SPONSORS AND EXHIBITORS

ICPOW2025 SPONSORSHIP OPPORTUNITIES

Our congress is dedicated to bringing together more than 120 established researchers and postgraduate students from various institutions to share most exciting results and insights in the field of parasitology. This will be an opportunity for delegates from all involved sectors to engage with leaders in the field and network in the comfort of a state-of-the-art conference facility.

Industry involvement is one of the key elements to the success of ICPOW2025.

The congress provides a number of Sponsorship and Exhibition opportunities to suit your organisation's requirements and objectives, with great benefits. We will also offer you the ability to customise/tailor your preferred package to meet your specific marketing and budgetary requirements.

Your presence and contribution enhance the overall scientific impacts of the congress – through promotional opportunities, scientific exchange and community engagement. In principle, all sponsors will be treated on a „first come, first served“ basis and will be mentioned in all Congress Publications, such as the Final Program and the Congress Website.

On behalf of the Organising Committee, we look forward to welcoming you as a valued Partner, Sponsor or Exhibitor at ICPOW2025.
