### THEMES AND SPEAKERS TO BE ANNOUNCED SOON

Dear Fellow Immunologists,

On behalf of the South African Immunology Society (SAIS), we are delighted to invite you to our 10<sup>th</sup> Annual Conference, now scheduled to take place from **30 October – 1 November 2025** at the **Garden Court Marine Parade, KwaZulu-Natal**. While unforeseen circumstances required us to adjust our dates, we remain committed to delivering an enriching and inspiring event.

The conference will be held under the theme: *Immunology at the Centre of One Health*.

This event is one of the major highlights on the immunology calendar, designed to foster collaboration and enhance dialogue to increase the impact of immunological research on global health.

Join us as we reconnect with friends and colleagues, explore new scientific collaborations, and draw inspiration to advance research and practice in key areas such as infectious diseases, primary immunodeficiency, allergy, rheumatology, transplantation, reproductive immunology, and veterinary immunology.

We are committed to delivering a dynamic and high-quality scientific programme, ensuring diversity and inclusion, and upholding transparency and professionalism in every aspect of the conference.

We eagerly look forward to your participation, your research presentations, and your continued support and can't wait to welcome you to KwaZulu-Natal for what promises to be an engaging and insightful conference.

Warm regards,

**Dr Luyanda Kwofie (PhD)**  
Conference Chairperson

**Prof. Theresa Rossouw (MBChB, PhD)**  
SAIS President
